Notes to Editors:

Aurelian Oil & Gas PLC was founded in December 2002 by Managing Director Michael Seymour to focus on the established oil provinces in the central European countries of the former CIS where there had been little investment in seismic and drilling technology during the previous 20 years. The Company has since developed rapidly from a pure exploration company into its present position with a wide portfolio of concessions in Poland (14), Slovakia (3), Romania (4) and Bulgaria (2), and a range of production, appraisal and exploration projects.

The near-term focus is aimed at establishing substantial production while continuing to build up potential for future development with a dynamic exploration programme across the region The Poznan East project is the key to short term development and by 2010/2011 should be producing substantial quantities of gas and commensurate revenues.
